

# U3A Manawatū

## the first 20 years

A history of the U3A Manawatū 2000-2020 by Carol Phillips

This 75 page book traces the development of U3A Manawatū from its very beginnings in June 2000. It has been put together from extensive research of our archives and input from several long-standing members. There are seven chapters covering the beginnings of the organization, the development of learning groups, general meetings and seminars, newsletters, the work of the committee, and short, reflective pieces by some long-time members on what being a member has meant to them. There are ten pages of colour photographs. The cover was designed by Jill Gibson and features one of her artworks
